

INVISIBLE FRAMING SYSTEM

Clean, frame-free look, makes the Invisible Frame ideal for interior and exterior wall mounted banner applications.

With Formetco's exclusive Invisible Frame Tensioning System, large format copy can be installed easily and safely. Copy as large as 14' x 48' can be stretched and secured wrinkle free around a frame that's kept out of sight. All parts are made of lightweight aluminum and galvanized metal for weather durability and ease of installation. Our frames can be ordered in any size, standard or custom.

Features and Benefits

- Copy is tensioned behind the frame, concealing all hardware and giving the illusion of "floating" copy with a tight, clean look.
- Copy is finished with pole pockets and can be quickly changed out with a cordless drill
- Simple to install and can be mounted onto a variety of surfaces
- Low profile; frame only sits 3 inches off the mounted surface
- Customizable sizes up to 750 sq. ft.
- Frame pieces come pre-cut to length and with mitred corners to simplify installation
- Made of lightweight aluminum and galvanized metal for maximum outdoor longevity
- Eliminates the use of ratchet straps, grommets, cables, bungee cords, and spring hooks
