

PANEL FREE FRAME

FOR USE ON STRUCTURES LOCATED IN HIGH WIND COASTAL AREAS

14X36 PANEL FREE FRAME

The Panel Free frame is an excellent alternative to wood and metal sections for use on structures located in high wind coastal areas.

Features and Benefits

- Mounts to standard steel stringers, reverse angle steel stringers or wood stringers
- Shipped pre-assembled complete with hardware (saves time on expensive installation labor)
- Designed to allow the vinyl substrate to blowout which eliminates the potential hazards of wood and metal sections being blown out
- No need to remove sections prior to or reinstall after hurricanes
- Backdrop hardware kit available (use this area for self-promo ads or public service announcements when space is not sold)
- Top, side and front extension kits available
- Easy on-site assembly
- Standard and custom sizes available
