ELASTIC TOOL LANYARD

Description

Formetco elastic tool lanyard designed to prevent dropped tools used while working at heights from falling onto workers or structures below.

The product has a cinch loop end for tethering to captive holes on tools. The webbing color facilitates remote recognition and its contrasting stitching color makes inspection easy for the user.

The lanyard should be selected according to the requirements of the work environment. This product is manufactured under strict quality standards.

ELASTIC TOOL LANYARD

Cleaning

Hand wash with cold water and neutral soap, dry in the shade and keep away from the sunlight when storing.

Inspection

Make an inspection plan with qualified personnel. The products are subject to an inspection before and after each use. Check for damage, deterioration or malfunction of stitching, webbing, labels and hooks. A written or electronic record of each inspection should be filled and kept.

System:	Lanyard:	Hook:	Length:
