SAF-GE-TL04G HELMET LANYARD

Description

Formetco helmet lanyard designed as an interconnection element between the harness and the helmet that prevents it from falling when working at heights onto workers or structures below.

The product should be selected according to the requirements of the work environment. This product is manufactured under strict quality standards.

HELMET LANYARD

SAF-GE-TL04G

Cleaning

Hand wash with cold water and neutral soap, dry in the shade and keep away from the sunlight when storing.

Inspection

Make an inspection plan with qualified personnel. The products are subject to an inspection before and after each use. Check for damage, deterioration or malfunction of stitching, webbing, labels and buckles. A written or electronic record of each inspection should be filled and kept.
