ADJUSTABLE WRIST BAND

Description

Formetco adjustable wrist band designed for connecting tool lanyards to the wrist of the user and prevent dropped tools used while working at heights from falling onto workers or structures below.

The product should be selected according to the requirements of the work environment. This product is manufactured under strict quality standards.

ADJUSTABLE WRIST BAND

SAF-GE-TLW01

Cleaning

Hand wash with cold water and neutral soap, dry in the shade and keep away from the sunlight when storing.

Inspection

Make an inspection plan with qualified personnel. The products are subject to an inspection before and after each use. Check for damage, deterioration or malfunction of stitching, velcro strap, labels and D ring. A written or electronic record of each inspection should be filled and kept.
