- (4) RLCORNERSTIFFENER
- (28) SCREW #14X3/4SQ

Product Specifications:

- LENGTH 96"
- ASSEMBLY Easy to Install on Sign
- MATERIAL 12GA Galvanized Steel

Corner Stiffener Installation Guide

STEP 1: Fold the straight 8' Corner Stiffener at the notched area to form an "L" shape.

STEP 2: Straighten the dog-eared Formetco or Tiffin RotaryLok Panel if needed, then position the stiffener so the short 41.5" leg caps the bottom or top of the panels, while the long 54.5" leg caps the sides of the panels.

STEP 3: Secure the stiffener to the corner with the supplied screws.

STEP 4: Repeat steps 1 thru 3 for the remaining stiffeners.
